<b>EMAIL:</b> zach@builddedison.com Subject Line: WIE Externship - Associate		<b>ABOUT Build Edison:</b> We help clean tech companies scale and commercialize faster and more consistently. With Build Edison, clean tech companies get a team of experts to transition their technologies to commercial scale and add value to both customers and investors. Our clients include energy startups and entities that have a vested interest in technology growth such as investors, strategic partners, and government innovation programs. Our facilities partners that host demonstration projects include utilities, REITs, municipalities, universities, and large commercial/industrials. Build Edison's technology focus areas are energy and sustainability solutions for the built environment, mobility and transport, and utilities.	
<b>Job Description</b>			
<b>ROLE AND RESPONSIBILITIES</b> <p>The Build Edison Associate will be responsible for tasks involving research and report writing and business development support. The research will include market and policy studies in energy related sectors to generate actionable reports and insights for our clients, as well as for strategic internal use. In the past, areas of research have included policy and market information on energy storage, electric transportation, real estate and efficiency regulations, utilities, and more. Business development support will include identifying new potential clients and partners, conducting background research on those companies, and reaching out and being involved in partnership and engagement conversations with cleantechs and energy related companies from around the world.</p>			
<b>EXTERNSHIP REQUIREMENTS</b> <p>The externship will require no less than 15 to 20 hours per week of time. Candidates can work remotely, but Build Edison expects interns to be available to present their work once or twice a week, depending on the week. The successful candidate will be a highly motivated self-starter with an entrepreneurial spirit.</p>			
<b>PREFERRED SKILLS</b> <p>Experience conducting research, Microsoft Office.</p>
